

Unique Stone, Inc.
ANTIQUE & GARDEN REPRODUCTIONS

Unique Designs for Refined Gardening

Unique Stone emerged 19 years ago started by Alex and Jason Perakis and prospered by the grace of our Lord Jesus Christ. They were taught and influenced by their parents, Charles Coble and Wilma Perakis Coble, who were in the cast stone business for over 60 years.

Fascinated with old world statuary, Alex began collecting American and European antiques from prominent dealers across the country, and incorporated them with some of the Cobles Collection. Jason graduated from the Citadel Military College in 1989, and fine tuned the daily operations. Together they bring to you one of the finest and most extensive examples of old world reproductions in the cast stone business today.

Unique Design & Quality Service

To insure quality, Unique Stone has on staff sculptors and master mold makers so a reproduction cannot be deviated from an original. We take pride in offering you cast stone products made from the finest natural materials. We combine crushed quartz, washed sand, and portland cement to create a cast stone product that will endure harsh weather conditions and promote a timeless piece of beauty to any garden and landscaping design. We proudly manufacture our cast stone in the U.S.A.

The Color samples shown below are for representation purposes only. Because each finish is hand applied by skilled artisans, there may be slight variances in finishes. Unique Stone puts forth our best effort to make these colors as accurate as possible.

OUR HISTORY

10023
